Professional Summary

UX/UI and product designer with 8+ years of experience across fintech, healthcare, AI-powered SaaS, and enterprise platforms. I specialize in design systems, data-rich interfaces, and complex workflows, combining user-centered design with front-end development. Currently completing an MSc in Human-Computer Interaction at Uppsala University, I use React, Tailwind CSS, and AI-assisted coding tools to translate design concepts into working interfaces.

Experience

Gaddr — Assistant Lead Product Designer Intern (Remote) | Stockholm County, Sweden | Oct 2025 – Jan 2026

- Designed desktop and mobile-first workflows, content management interfaces, and admin dashboards for MVP1 of an AI-powered social media platform, covering engagement monitoring, account linking, identity verification, and AI-automated publishing.
- Ran A/B tests and tracked adoption metrics to refine AI-driven workflows; extended the design system with reusable components and data visualization patterns, partnering with engineering and product on implementation-ready handoffs.

Essex Lake Group — UI Designer II | Shanghai / Xi'an, China | Aug 2022 – Jul 2025

- Partnered with PMs and engineering teams to build AI-driven financial platforms for executive and management-level users, including EARS (Executive Action and Response Solutions) and EyeVia (a control and analysis platform for mid-level management).
- Designed and developed data visualization dashboards and analytical interfaces using Tableau, Power BI, and the company's proprietary financial design system, enabling real-time insight generation and conversion of insights into actionable tasks.
- Delivered customized design solutions for clients, including a North American Top 3 bank and a leading Canadian financial institution, aligning design outcomes with complex business goals and compliance standards.
- Led the corporate website redesign and created over 30 marketing brochures and executive presentation decks, strengthening the company's visual identity and communication strategy.
- Built a centralized Design Manual and resource website covering UI specs, components, code references, prototypes, motion, and brand and marketing assets, working with development, product, and consulting teams to ensure usability, consistency, and clarity across data-driven financial platforms and break down information silos.

Beijing Yuanxin Technology Co., Ltd. — Mid-level UI Designer | Chengdu / Beijing, China | May 2021 – May 2022

- Designed cross-platform UI/UX for WeChat mini programs, iOS, and Android, improving engagement and accessibility for healthcare professionals in digital learning.
- Designed the responsive, patient-centered Yuanxin Health mobile app, including remote consultations, medical services, prescription management, and order flows.
- Created accessible interfaces for policy browsing, claims, and customer support, plus dashboards and data visualizations for B2B healthcare big-data analytics tools.

Freelance UI Designer | Bangkok, Thailand & Manila, Philippines | Jun 2015 – Feb 2020

- Delivered responsive, performance-optimized websites and iOS/Android interfaces for global markets, including renewable energy platforms and enterprise ERP systems, from wireframes to front-end collaboration.
- Led user research across five geographic regions to inform design workflows for e-commerce, service, and gaming platforms, tailoring experiences for the Southeast Asian market.

Education

Uppsala University — Master's Degree, Human-Computer Interaction | Sep 2025 – May 2027

Chengdu College, University of Electronic Science and Technology of China — Bachelor's Degree, Animation | Sep 2007 – Jun 2011

Skills

- **Design & Prototyping:** Figma, Sketch, Lottie, Adobe Creative Suite (Photoshop, Illustrator, InDesign), Wireframing, Prototyping, Interaction Design, Visual Design, Motion Design
- **UX Research & Methods:** User Research, Usability Testing, A/B Testing, User Journey Mapping, Service Design, Service Blueprinting, Storyboarding, Accessibility (WCAG 2.1), UX Writing, Human-AI Interaction, Design Thinking, Quantitative and Qualitative UX Metrics
- **Design Systems & Collaboration:** Design Systems, Component Libraries, Developer Handoff, Stakeholder Management, Cross-Team Collaboration, Agile Development, Atlassian Jira
- **AI & Front-End Development:** HTML, CSS, JavaScript, React, Next.js, Vite, Tailwind CSS, Shadcn UI, Vercel, Visual Studio Code, Cursor, Claude Code, Codex, Google AI Studio, LLM Prompting
- **Data & Product:** Tableau, Power BI, Data Visualization, Data-Driven Design, Product Strategy
